JAMES E. HEG RETIRES FROM STATE BOARD OF CONTROL.

Appointed Superintendent of the New Reformatory at Green Bay—Will Supervise Construction of the Building—General Burchard Appointed Postmaster at Fort Atkinson.

Madison, Wis., April 8.—President James E. Heg, of the state board of control, this afternoon decided to accept the position of superintendent of the state reformatory to be erected near Green Bay. He made the decision after a long talk with Judge Lyons, of the board, in its office at the capital. His term as a member of the board of control will expire April 15, and he will at once assume the duties of his position, and remove to Green Bay about April 27.

Under the plans of the board Mr. Heg will have charge of the reformatory from the time the first stone is laid in the walls until the institution is complete. He will be given considerable latitude by the board to work out his own ideas in the construction of the buildings. The plans are to be turned over to him, and his advice will be sought by the board at every step. During the period of construction he will perform the duties of superintendent of construction.

It may be interesting to note that Mr. Heg's father was commissioner of the state prison just before the war, and during many years of his life, Mr. Heg has been connected with penal and reformatory institutions.

HOPE OF PEACE IS GONE.

Minister Woodford Looks Upon War As A Certainty.

Washington, April 8.—So far as the United States is concerned no proposals are being made to Spain. General Woodford will probably remain at Madrid till after congress has acted upon the president's message, or at least until the message shall have been made public. He remains at his post merely for the purpose of receiving and forwarding any communication which Spain may wish to make to this government. General Woodford occasionally advises the state department of the condition of affairs at Madrid, and until recently he has been hopeful of a peaceful outcome. Now, according to authentic information, General Woodford has reported hope is about gone, that Spain has taken her stand, and that he sees no signs of weakening.

THE HEARING IN PROGRESS

Charles A. Ramey's Suit Against the Kirkpatrick's Heirs.

In the county court today the case of Charles A. Ramey vs. Eva J. Swinton et al., was resumed before Judge Sale. Testimony was taken on both sides. From the evidence it appears that the plaintiff is suing for general expenses incurred in caring for the late Mrs. John Kirkpatrick, and not for personal services rendered, the amount being \$1,600.

In October, 1893, Mrs. Kirkpatrick, who was then eighty-two years of age and totally blind, fell and broke her thigh bone, and was perfectly helpless ever after. She was cared for by Mrs. Ramey until she died, last fall, at the age of eighty-seven years.

WAR MESSENGER PIGEONS.

Plans Made to Establish a Service From Key West to the Ships.

An unmistakable sign of the thoroughness of the preparations for war with Spain, it is claimed by naval officers, is the placing by Secretary of the Navy Long of a large order for quills for the Key West naval station. The quills were designed by Professor Marion of the United States Naval academy and are for use in connection with a messenger pigeon service to be established at Key West. The quills are attached to the birds and are to contain messages.

The pigeons are to be put on the ships of Admiral Sicard's squadron and established in a cove at the naval station, so that they can be used to carry messages back and forth to the ships when they are at sea off the coast of Cuba. These birds, as has already been established by experiments, can carry messages faster than the speediest dispatch vessel. One carried a message recently from the battleship Texas to a shore station, a distance of more than 400 miles.

The ships on duty in the gulf of Mexico and the Caribbean sea will by this means be brought into telegraphic communication with Washington through the naval station at Key West. The carrier pigeons would enable ships on blockade and scouting duty to keep their stations, report movements of the enemy and follow him up. Without such messenger ships might be compelled to leave their stations and run for port in order to communicate important news.—New York Journal.

A GOOD MANY IF'S.

Contingencies That May Precipitate a Crisis in Cuban Affairs.

Chicago, April 8.—The Washington correspondent of the Tribune sums up the situation in regard to Cuba as follows:

"Members of congress have been disappointed so often and have had their feelings wrought up by continued reports of immediate action, that they are exceedingly disinclined to predict things any more. They say that if the president's message goes in on Monday, and if it recommends armed intervention, and if it preclaims independence for Cuba, and if the committee takes the same view, and if the senate and the house can be induced to act together, and if the president does not veto the joint resolution, and if Spain does not back down in the meantime, there may be a movement in the fleet toward Havana, but otherwise not."

WEALTH OF KLONDIKE.

Streams Already Located Are Said to Contain \$70,000,000.

Messrs. Rudolph Newman and James M. Wilson of the Alaska Commercial company are now in Canada to purchase goods for the posts of the company. Upon being asked for an estimate of the Klondike country and its richness Mr. Wilson replied:

"From the Klondike the aggregate amount of gold that will be brought out, it is estimated, is \$70,000,000—that is, from the streams already located. However, people who have not been there do not seem to understand that all this ground is already taken up and owned by the miners there or who have been there. Consequently a great many of the newcomers will be disappointed. Doubtless other fields will be discovered, but that is a question for prospectors to decide. It must be remembered that the country has been more or less prospected for ten years past, and it was only last year that gold was discovered in sensational quantities.

"The conditions of the trail this spring will be very much congested with the numbers rushing into the country, which are variously estimated at from 250,000 to 300,000 people. We consider this a moderate estimate. The present discoveries will not justify such an influx, because we do not believe there will be work for the numbers. There is plenty of territory to prospect, but it cannot well be done successfully until the low water in the autumn, which generally takes place about August, so that there must be many disappointed ones.

"The Hunker, Dominion and Sulphur creeks as well as the Bear and numerous minor creeks are proving valuable far beyond expectations, especially the former three, and I consider that the Klondike boom is only in its infancy as yet."

English Rapid-Firing Guns.

ARE AWAITING DEVELOPMENTS

WASHINGTON AND MADRID GOVERNMENTS EXPECTANT.

No Probability That War Can Be Averted—Hanna Alone Composes the Peace Party In Congress—Lee to Leave Havana Today—Refugees By Thousands.

Madrid, April 8.—[Special]—The cabinet was in session until midnight last night. The greatest secrecy is observed regarding the proceedings. The censorship of dispatches is becoming more vigorous.

THE PEACE CAMP DESERTED.

Senator Hanna the Sole Survivor of the Party.

Washington, April 8.—[Special]—The peace camp today is almost deserted. The remaining questions now are when and how will we fight? The president's plan for intervention before the recognition of independence gains in favor. The question "What will we fight for?" is bringing the Maine horror to the front, and if war should come it is safe to say that the men on the battleships will fight harder to avenge the murdered sailors than right the wrongs of Cuba. The battle signal for the flying squadron is "Remember the Maine." This signal has already been chosen by Commodore Schley.

Hanna is the sole surviving member of the peace party. He still clings to the belief that there should not and will be no war.

New York, April 8.—[Special]—The Ward line steamers plying between this port and Havana have been withdrawn from service for the present. This move is made presumably on advice from Washington, and confirms the general expectation that war with Spain will occur.

NEWS FROM NEARBY NEIGHBORHOODS

INCOMINGS AND OUTGOINGS OF ROCK COUNTY PEOPLE.

Gossip of a Personal and Business Character Gleaned By Gazette Reporters in the Garden Spot of Wisconsin - Religious and Social Notes.

(THE GAZETTE AGENCY, W. W. CLARKE, Manager, Milton, Wis., April 8, 1898.)

The town meeting resulted in the election of the republican ticket, with the exception of J. O. Anderson, constable, who was defeated by D. McCulloch, candidate on the democratic and People's tickets, by twenty-two votes. As there were four tickets in the field, the republicans did well to win. The board in the Milton Junction precinct decided that L. T. Rogers, W. S. West and E. S. Babcock, who received 43, 45 and 41 votes respectively, were elected justices, because the prohibition ticket on which they ran was the only one which stated that a vacancy was to be filled, despite the fact their opponents, A. S. Bullis, A. D. Frink and Miles Rice received 201, 347 and 349 respectively. Good legal authority says their decision is erroneous, and would not be sustained by the courts. Mr. Rogers has already announced through the press that he will not accept the office under such circumstances, a very proper proceeding on his part and worthy of imitation. The recommendations of the board were adopted as to special appropriations, and among the numerous resolutions adopted were the following: All grading and graveing to be finished on or before September 1 of each year; bicycles to be assessed the same as other property; snow to be immediately removed after falling from all sidewalks in this village and Milton Junction by the land owners, and a failure on their part permits the road commissioner to remove it and the cost charged against the property; farming lands held at \$1,000 per acre to be assessed in proportion to that valued at \$50; \$200 to finish and repair the plank walk between the two villages; \$25 to the Conkey creamery for providing a public drinking trough.

The Gazette compositor butchered one of the items in the last batch of Afton notes, which we wish to correct. The item referred to was in regard to the visit of Mrs. E. Searls, of Harvard, Ill., with Afton friends, and should have mentioned that she was the guest of Mrs. David Thorne on Thursday of last week. J. B. Humphrey was unable to go to Madison Wednesday as contemplated, owing to a sudden and severe attack of illness. He is much better at this writing. Charles F. Sims, of Grand Forks, N. D., is visiting relatives in this vicinity.

ELOQUENT WORDS FOR TEMPERANCE

MR. BEAUCHAMP'S SECOND LECTURE WELL ATTENDED

Earnest Exposition of the Evils of the Liquor Traffic—Women More Potent Than Men in the Cause of Temperance—Classes Desirable as Workers in the Cause.

Lou J. Beauchamp's second address on temperance was given last evening at the First M. E. church. The attendance was large and interested. Not only were well known temperance workers largely in evidence, but there were a goodly number present from the ranks of the steady drinkers who regard indulgence in a social glass once in a while as of no particular harm.

The pastor of the church, Rev. W. H. Thompson, opened the meeting with prayer after which Mr. Beauchamp proceeded with one of his characteristic discourses. He showed the evils of intemperance from many points of view—its economic folly, its moral sin, its violation of man's obligation to God. His arguments were forcible and pointed and were illustrated apt anecdotes that at times drew forth much laughter. The nation was being bankrupted, he claimed, by the liquor traffic, and it was the duty of every patriotic citizen to raise his voice and exercise his influence in the cause of total abstinence.

Women the Apostles of Temperance

The women of the land were doing a noble work for temperance. The Good Templars were no doubt accomplishing much good, but the Woman's Christian Temperance Union was doing more. This noble organization of women had been able to reach more people than any other agency. It went into the homes in every community in which it had an organization, and secured the potent influence of wives, and sisters, and mothers and daughters. These had rescued many thousands from the vortex of intemperance, and had made of them exemplary citizens and consistent Christians. The gospel of Christ was the chief agency for good. Without it all efforts would be futile, and it was this that made the efforts of this army of noble women so effective.

The Classes Needed

There were three classes of people, the speaker said, who composed every community. The first class spend all of their time looking at themselves; second class people spend all the time trying to be first class, and the third class are the only people that are worth much. These people must be roused to action and put to work. What Janesville people need is to crystallize sentiment into organized action against the saloons. Sentiment is the John the Baptist, the forerunner. Action is the Christ.

The manner of Mr. Beauchamp was earnest, his language was eloquent, and he succeeded in awakening a great deal of enthusiasm among his hearers.

Future Meetings

The series of lectures will continue to night, tomorrow night and Monday night at the First M. E. church. Tonight, if the attendance warrants it, Mr. Beauchamp will give his lecture, "Age of Young Man," a lecture which he never includes in his free talks. Tomorrow night he will speak on the business side of the temperance question, "License or No License." He will doubtless be greeted by large audiences both evenings.

FOR CAPE VERDE ISLANDS.

Spain Is Preparing in Earnest for the Inevitable Struggle—Gen. Grosvenor Predicts War Within a Week—Senator Morgan Aroused.

Madrid, via Paris, April 8.—The Spanish men of war will leave Cadiz immediately for Cape Verde islands, where they will join the torpedo flotilla.

Several battalions have started to re-enforce the garrison at the Balearic islands, in the Mediterranean.

The provincial militia in the Canary islands will be placed on a war footing.

London, April 8.—A special dispatch from Madrid says the ambassadors of France, Germany, Russia and Italy waited together upon Senor Gullon, the foreign minister, and presented a joint note in the interests of peace.

Senor Gullon, replying, declared, according to the dispatch, that the members of the Spanish cabinet were unanimous in considering that Spain had reached "the limit of international policy in the direction of conceding the demands and allowing the pretensions of the United States."

Madrid, April 8.—The excitement in Spain has reached the boiling point, but there are no demonstrations recorded anywhere yet.

All the steamship firms of Valencia have offered all their vessels as privateers, and a number of ship captains have called upon the naval commander at Barcelona, asking for letters of marque. Similar requests have been received from abroad, especially from France.

The offers of money from the provinces toward the fund to increase the strength of the navy are said to be encouraging to the government. It is said that Biscay alone has offered more than 25,000,000 pesetas.

The Herald's leading article will applaud the government's conduct in replying to Gen. Woodford, whose proceedings, the article says, are considered extraordinarily brusque and blamable. Briefly summed up, the Herald's information points to the fact that war is inevitable.

SPAIN RAISING WAR FUNDS.

This Step, So Long Delayed, Is Accepted as the Sign of a Conflict.

London, April 8.—The Madrid correspondent of the Daily Mail says:

"The subscriptions to the national war fund, which the government has opened, will be deposited in the Bank of Spain at the disposal of the government. Army, navy and all government, provincial and municipal officials will contribute at least one day's pay. Private corporations and clubs, as well as newspapers, have convoked meetings to make the subscription as big and popular as possible.

"The government has been criticised for not opening the fund earlier, but it was afraid of alarming the country. Despite the postponement of President McKinley's message to congress the hopes of peace have sunk, and the opening of the national subscription is considered a bad sign. It is announced in official circles that the queen regent will sign tomorrow some important decrees in relation to war.

"Navy department officials, who are generally well informed, declare their strong suspicion that there is something very important behind the curtain, and that this something may be an eleventh-hour solution. I may point out as a very curious and striking fact that the news that President McKinley would at the last moment, if not before, postpone until next Monday sending his message to congress, was known here, since Monday.

"During the last three days news, which, however, has been received with some skepticism, has been circulated here stating that President McKinley had finally decided to make a stand against the jingoes and to follow President Cleveland's policy with the support of Mr. Cleveland, the latter's friends and the peace-loving elements of the United States.

"Another important point has been as to what concessions Mr. McKinley will ask from Spain in order to calm American opinion. But these demands, if any, may be of such a character as to make it impossible for Spain to yield."

MORGAN SEES A WAR JOB.

He Says a Treasonable Monopoly Has Been Formed to Control Coal.

Washington, April 8.—Some sharp war talk was indulged in by the senate Thursday. When consideration of the sundry civil appropriation bill was resumed the question pending was the amendment of Mr. Pettus (Ala.) providing for such improvement of the harbor at Mobile as would enable war vessels to obtain coal and other supplies there. Mr. Allison (Iowa), in charge of the bill, made a point of order against the amendment.

This called out a bitter speech by Mr. Morgan (Ala.), who charged the appropriation committee with discriminating against proper measures, and threatened to assist in dissolving the committee. He followed with an argument showing the necessity for the improvement proposed, holding that it would open to the government in time of war the coal fields of the south and enable it successfully to fight the treasonable monopoly that had been formed to control the coal supply of the country in the event of war.

The amendment was lost. At 4 o'clock the senate adjourned till Monday.

WAR IN A WEEK.

Gen. Grosvenor Makes a Prediction in the House.

Washington, April 8.—There was a

scene of great excitement in the house late Thursday afternoon during the consideration of the bill for the reorganization of the army. It was caused by Mr. Lentz, an Ohio democrat, who made a vicious assault on the administration, charging that the policy of delay was in the interest of stock jobbers in Wall street. He alleged that Wall street was in the possession of information that the message would not go in long before it was known at the capitol and profited heavily by the advance in the price of stocks which resulted.

Mr. Lentz' speech was met with an emphatic reply from Gen. Grosvenor, now generally regarded as the administration spokesman on the floor. Mr. Grosvenor not only indignantly denied that there was any justification for the reports, but held Mr. Lentz up to scorn for alleging corrupt motives against the president. Before he concluded he expressed the opinion that war was as certain as that we would live until next week, unless it was averted by Spain.

ON TO HAVANA.

Key West Squadron Ready to Begin Hostilities.

Key West, April 8.—Captain Sampson, acting admiral of the fleet now at this point, stated that he expects to have the squadron under way for Havana by Sunday. Every executive officer on board each boat in the fleet knows now just what to expect, and all preparations have been made to carry out the significant instructions received. As soon as General Lee and the other consular officers and Americans are safely out of Cuba it is understood war will be formally declared, and the immediate movement will follow.

Advices Against Recognition.

Washington, April 8.—Attorney General Griggs has furnished to President McKinley a legal argument against the advisability of recognizing Cuban independence prior to intervention and the establishment of a stable government. He says it can be easily understood that when the government occupies Cuba it must do so with a free hand, not hampered by previous conditions. If we recognize the insurgents they and they alone must be consulted; they and they alone can come in and formulate the policy which shall control events.

Lee Will Sail Tomorrow.

Washington, April 8.—Consul-General Lee will leave Havana Saturday as a result of explicit instructions from the state department and a reply from him saying he would sail on the day named.

A telegram received at the state department from Gen. Lee reported everything quiet in Havana. Gen. Lee thinks it probable that all Americans in Cuba who desire to leave the island will be able to do so by Saturday unless something unexpected should happen suddenly to prevent them.

Told to Leave Cuba.

New York, April 8.—Stephen Barton, chairman of the central Cuban relief committee, said Thursday that he had received a cablegram from Miss Clara Barton, president of the National Red Cross society, who is at present in Cuba, saying that she had been advised by Consul General Lee to leave the island at once, as it would be unwise for her or any other American to stay later than Friday. Miss Barton said nothing of the condition of affairs in Cuba.

Pope's Offer Is Rejected.

Berlin, April 8.—The Madrid correspondent of the Cologne Gazette says: "The papers of the American consulate have already been intrusted to the care of the British consulate.

"At midnight the pope made fresh confidential representations to the Spanish government; and a second cabinet council was then held.

"But the reply was to the effect that the pope's intervention had come too late, as a decision had already been arrived at."

Civil War Is Feared.

Madrid, April 8.—Spain's laconic minister for war, General Correa, has at last broken his silence. In an interview the general has given an interesting account of the situation, saying: "War is the better of two evils. It is better to fight foreigners than to fight Spaniards rising in indignation if their honor and rights are trampled under foot."

Offers the Indiana Troops.

Indianapolis, Ind., April 8.—Gov. Mount has made a formal tender of the services of the Indiana national guard to President McKinley. It was announced at military headquarters today that the tender was made ten days ago and that the answer from Washington caused the department to hasten to put the state troops on a war footing.

To Bombard Havana.

Washington, April 8.—Information from a high source clearly intimates that a naval demonstration against Havana has been considered and is almost certain to be made within the next few days unless Spain yields, and if this demonstration results in war the president is ready to accept the issue.

Mr. Gladstone Feeling Better.

Hawarden, April 8.—Mr. Gladstone was feeling sufficiently well Thursday to take a stroll in the garden.

THE PRICE OF SHOES

The Boot & Shoe Recorder, speaking of the enormous sales, which far exceed those of any preceding year, says: "When the jobbers came into the market they were surprised at the low prices at which they could buy. It seems to be an unwritten law that no advance should be put on high grade shoes. The speakers who declared that the Dingley law would increase the price of shoes have not yet discovered the advance that they predicted."

The State Board of Control are fortunate in securing the services of Hon. James E. Heg as superintendent of the intermediate prison in process of construction at Green Bay. Mr. Heg has made a study of criminology and is thoroughly well equipped for the work in hand. His work on the State Board has been trickless and intelligent. He has had much to do with shaping the policy of the several state institutions during the past three years and has been recognized as a valuable member of the board.

Under his wise supervision the intermediate prison will rank with the best reformatories of the kind in the country. His many friends throughout the state will wish him success.

"It is what the product of a man's labor may buy of the comforts of life that interests him; not how many shillings, or pesos, or rupees, or dollars it will bring. Now when by a long course of experience all things have become normally and fairly related to each other through a common medium of measure, it is a most serious or disturbing thing to suddenly displace that common medium and adopt another of a different value, to which all labor and labor-products must become newly related."—From Secretary Gage's Cleveland speech.

First ward democrats refuse to allow Jake Heller to become a republican. Mr. Heller's bolt was not recognized, and all but ten of the First ward democrats voted for him. If Mr. Heller is equally strong in other wards, he is certainly the logical candidate for mayor.

Janesville people have plenty of evidence at hand of the return of prosperity. A few months ago the Janesville Machine Co.'s plant was shut down. Now a new building must be erected or orders cannot be filled.

The republicans of Janesville all voted, it seems, whether they brushed their teeth and blacked their shoes or not.

Oshkosh people profited by Janesville's water works experience. The proposition that the city buy the plant was defeated.

Word comes from the woods that the Milwaukee republicans are "a little better, thank you."

The next out-of-the-ordinary event will be the police in uniform.

YEAR'S COAL OUTPUT.

Statistics for 1897 Show Increased Tonnage and Value.

Washington, April 8.—From a preliminary statement compiled by E. W. Parker, statistician of the United States geological survey, it is shown that the total output of coal in the United States in 1897 amounted approximately to 198,250,000 short tons, with an aggregate value of \$198,100,000, a fraction less than \$1 per ton.

Compared with 1896 this shows an increase in tonnage of 6,270,000 tons or about 3.3 per cent. The increase in the value of the product was only \$1,700,000, a little less than .9 per cent. In twenty out of the twenty-nine states producing bituminous coal, the average price per ton in 1897 was less than it was in 1896, the general average for the United States being 83 cents in 1896 and 81.6 in 1897.

The decline of 1.4 cents on a total product in 1897 of 146,000,000 tons represents a decrease of something over \$2,000,000 from what would have been the value if the price had been the same as it was in 1896.

Seeds, Alone,

Of all the purchases of a countryman, a farmer or gardener, or of a city man having a front or back yard, are articles requiring absolute confidence as to the final outcome of their sowing. The planter of Seeds can tell something beforehand, judged by their outward appearance, when he buys a pair of shoes, suit of clothes, a piece of machinery, even a horse—always a risky investment—but with Seeds he has nothing to guide him as respects merit; nothing but the reputation of the grower. He places himself at the mercy of the Seed Grower and spends his money and time covering a period from 40 to 100 days before he knows whether or not he has been given the value of his outlay and expectations, or has been sold a gold brick. Reader, you take none of these chances in purchasing Landreth's Seeds.

HE SHOT HIMSELF THROUGH THE BRAIN

JOSEPH BRADLEY LIES AT
DEATH'S DOOR.

Self Inflicted, But Whether Intentional or Otherwise is Not Known—Relatives Believe the Injury Was Accidentally Inflicted, and Facts Sustain the Theory.

Joseph Bradley lies hovering between life and death at his home on Highland avenue with a bullet in his brain. His injury was self-inflicted, but whether by accident or design may never be known. The opinion of his wife and other relatives, who have the best means of knowing the facts, is that the wound was accidentally inflicted. And there is good reason for this belief, for Mr. Bradley was never more cheerful and self-possessed than he was a few moments before the tragedy occurred.

Shot Through The Brain.

Mr. Bradley is a well known resident, having for years worked upon the city street, and he was known as an industrious and sober man. Yesterday at noon he partook of his dinner as usual, but told his wife he would remain at home during the afternoon, as there was no need of his going to work. Shortly after his meal he went into the parlor, leaving his wife to attend to her household duties. The report of a pistol shot brought Mrs. Bradley into the parlor, and she was horrified to find her husband lying upon the carpet with a ghastly wound in his head from which the blood and brains oozed slowly. Dr. E. E. Loomis was hastily summoned, and found that the ball had entered the head above the top of the ear and had passed directly into the brain. Mr. Bradley was unconscious, and the doctor declined to probe for the ball, as the operation would only hasten his death.

Recovery is Possible

Towards evening Mr. Bradley partially recovered consciousness. He was too weak from loss of blood, however, to give any account of the occurrence. His mind appeared to be wandering somewhat. He was able to walk and speak a little, but it was deemed wise not to question him. Dr. Loomis entertains but small hopes of Mr. Bradley's recovery. As yet there are no symptoms of paralysis or the clotting of blood upon the brain, occurrences that usually follow such injuries. If these can be ward off, a recovery may be looked for, although he will never recover his full vigor under the most favorable circumstances.

Led a Tranquil Life.

Mr. Bradley's daughter is the wife of Frank Moses, a well known resident of this city. The injured man had a large acquaintance, and is generally looked upon as an excellent citizen. His domestic relations have always been tranquil, and there are no circumstances attending his affairs that give color to the theory that his injuries were the result of a suicidal intent.

A Scandalous Publication

EDITOR GAZETTE—The article in this morning's Recorder headed "McKinley's Message Secured by Chicago Chronicle" is a disgrace to journalism. It is misleading to the readers. It is unjust to our chosen president. It is untrue, and the readers should be apprised of the misrepresentations, the unreliability of that so-called progressive "people's paper." First a solid gold basis money obligation and soon to swing over to free silver Bryanism, leads sensible people to mistrust. The hope of our country is to stand by its chosen rulers. Many think, and it may be possible, that our rulers are in error. Time will eliminate that and there is a remedy through the disobedience of the people's wishes as represented in the congress.

In the matter of the controversy between Spain and the United States, so complicated in many respects, people should abide in patience with the powers that be. In the president of the United States, first, we have a christian, second, we have a soldier, third, we have a statesman, fourth, we have a lawyer, and backing him without a dissenting voice we have the congress to support him. In the annals of history of the world there is not on record such a unanimity among all classes to support the authorities that he is a rigorous proponent to any end that shall stop the wholesale butchery of our neighboring patriots. This country represents today a United people. No north, no south, no east, no west, but a whole boundless America is ours. The copperheads and the opponents of the Lincoln movement in the war of the great rebellion were in a perdition atmosphere at the close. What I'll be said of the opponents of the present conflict at its termination? Better be with the winning party. America is and is to be in the ascendancy in all things in the world. Our importance and permanency is seen by all powers today more than ever. Let us down dialoical journalism. Let us rise as a unit in putting down any nation or government that may favor the dreadful butchery which has prevailed for years in our neighbor's land. Never in the history of the world, have such awful things been known.

Read Senator Thurston's speech to congress, and guide your actions and words. Let us stand by the dictates of our chosen rulers; stand by Old Glory and all will be well. CITIZEN.

We fit all feet and guarantee every pair. C. O. Bennett Shoe Co.

DEATH COMES TO HIM IN HIS GARDEN

M. V. PRATT DROPS DEAD
EARLY THIS MORNING.

Attacked By Heart Failure As He Was Viewing His Flower Beds—Was An Old Resident of Rock County and Prominent In Business and Public Affairs.

M. V. Pratt, one of the old residents of the county, fell dead while working in his garden in Riverview Park this morning. He was far advanced in years, but in spite of his years was active and energetic, and took much pleasure in outdoor work. He was fitting the small flower garden at the side of his house this morning about 9 o'clock when he tottered, sank to his knees and then laid out full length.

Death Was Instant.

The little son of a neighbor, C. S. Graves, saw him lie down, and was frightened to see that he did not move. He ran and called his father, who hurried to the spot. By this time Mrs. Pratt had come out of the house, and they tried to raise the prostrate man. Before this, however, life had departed.

Mr. Pratt had died almost instantly. A hasty examination by physicians was followed by the announcement that death had been caused by heart failure. Mr. Pratt had complained of heart trouble several times of late.

A Prominent Citizen.

Mr. Pratt was about sixty nine years old and came to Rock county in an early day. He took a prominent part in the development of the county, was a member of the county board for a number of years and served in the assembly. For several years he represented the northern part of the county on the republican county committee when the committee was composed of five members.

Mr. Pratt leaves a wife and one daughter, Miss Edith Pratt. Their home for many years was in Evansville. They went to the Pacific coast about three years ago and returning from there in 1897 took up their home in this city, occupying the Bingham house in Riverview Park.

Funeral arrangements will be announced later, but it is understood that the burial will be in Evansville.

Our Race with the Planets.

The earth is but a mere speck among the universe of worlds, racing with far swifter, and more ponderous bodies. The one who attempts to grasp and comprehend the situation without more or less effort and study, will soon become discouraged and fall by the wayside.

We should keep the fact in mind, "that the constant dripping of the water wears the hardest rock away," and in a like manner the constant accumulation of little grains of truth in our storehouse of knowledge adds power to the intellect. The earth travels in her orbit over 68,000 miles an hour. This may be roughly calculated as follows: The earth is 95,000,000 miles from the sun; then the diameter of the earth's orbit must be twice that number, or 190,000,000 miles. Then three and one-seventh times that number will be near the circumference of the earth's orbit, which would be the distance the earth travels every year, or 597,142,857 miles; which, if divided by 365, gives a trifle over 1,636,000 miles for the earth's daily motion; divide this by 24 and we have 68,166 for her hourly motion; this divided by 60, gives 1,136 for her motion per minute, which divided by 60, gives a small fraction less than 19 miles as the motion of the earth every time your watch ticks off a second.—Prof. G. W. Cunningham.

Woman Stealing Meerschaums.

The French have produced the most remarkable kleptomaniac on record. All were meerschaums, and thirty-nine were well colored.

STORIES OF RELIEF.

Two Letters to Mrs. Pinkham.

Mrs. JOHN WILLIAMS, Englishtown, N. J., writes:

"DEAR MRS. PINKHAM:—I cannot begin to tell you how I suffered before taking your remedies. I was so weak that I could hardly walk across the floor without falling. I had womb trouble and such a bearing-down feeling; also suffered with my back and limbs, pain in womb, inflammation of the bladder, piles and indigestion. Before I had taken one bottle of Lydia E. Pinkham's Vegetable Compound I felt a great deal better, and after taking two and one-half bottles and half a box of your Liver Pills I was cured. If more would take your medicine they would not have to suffer so much."

Mrs. JOSEPH PETERSON, 513 East St., Warren, Pa., writes:

"DEAR MRS. PINKHAM:—I have suffered with womb trouble over fifteen years. I had inflammation, enlargement and displacement of the womb. I had the backache constantly, also headache, and was so dizzy. I had heart trouble, it seemed as though my heart was in my throat at times choking me. I could not walk around and I could not lie down, for then my heart would beat so fast I would feel as though I was smothering. I had to sit up in bed nights in order to breathe. I was so weak I could not do anything."

"I have now taken several bottles of Lydia E. Pinkham's Vegetable Compound, and used three packages of Sanative Wash, and can say I am perfectly cured. I do not think I could have lived long if Mrs. Pinkham's medicine had not helped me."

FREE COINAGE OF SILVER.

William J. Bryan Receives an Enthusiastic Welcome—J. P. Tarvin of Kentucky Elected President—Will Meet Next Year at Louisville.

Indianapolis, Ind., April 9.—At Thursday's session of the convention of the bimetalists of the Ohio valley Tomlinson hall was filled twice to hear William J. Bryan talk. The two speeches were along financial lines. His declaration that there must be no hesitation about making silver the issue in the coming state elections and in the next campaign was heartily indorsed by the convention. Bryan, in his afternoon speech, all but declared for Williams for the fall of the ticket. After eulogizing the Boston advocate of bimetalism, he said: "The east and the west will be linked in the contest of 1900."

In his night speech Bryan made reference to the labor situation. He said he had refrained from making any comment on the policy of the administration because he would not wish to say anything that might add to the burden of those intrusted with the administration of government. They no doubt had information in reference to the diplomatic negotiations which others did not possess.

He paid a tribute to Consul General Lee. It could no longer be said, he declared, that any democrat was hostile to the flag. At last the civil war was over; it was demonstrated that whenever it was necessary to fight the American people would fight as one nation.

Chairman Towne of the national silver committee, who was among the speakers, said the free-silver forces, united for the contest of 1900, had already nominated Bryan as the candidate.

The resolutions were submitted by Samuel E. Moss of this city, ex-consul-general to Paris. They are as follows:

"That we regard the financial question as the paramount political issue of the day, and hereby pledge ourselves to continue the battle for bimetalism until the free and unlimited coinage of both silver and gold at the present legal ratio of 16 to 1 with full legal tender quality is secured, without waiting for the consent or co-operation of any other nation.

"We are unalterably opposed to the single gold standard and the so-called reform of the Indianapolis monetary convention and all kindred projects.

"We believe that congress alone has power to coin and issue money, and that this power should not be delegated to individuals or corporations; that the power to control and regulate a paper currency is inseparable from the power to coin money, and that all currency intended to circulate as money should be issued and its volume controlled by the general government only.

"We invite the co-operation of all persons who believe that the financial question is the paramount political issue, and urge that all other domestic questions be held in abeyance until the principles enumerated in the foregoing resolutions shall be embodied into law.

"We express our continued confidence in the brave and sagacious leader of the bimetallic forces in 1896, William Jennings Bryan, whose high character, eminent ability, unimpeachable integrity and dauntless courage, inspired with unparalleled devotion the democratic, silver republican and populist hosts in 1896.

"We extend our sympathy to the struggling and starving Cuban patriots in their contest for liberty, and are in favor of immediate intervention by the United States to secure the absolute independence of the Cuban republic."

James P. Tarvin of Covington, Ky., was elected president of the league by acclamation. The following vice-president were elected:

A. C. Bentley of Illinois, F. J. Van Voris of Indiana and N. R. Tucker of Ohio.

Allen W. Clark of Indiana was elected secretary by acclamation and Colon Scott of Ohio treasurer.

The new executive committee is made up as follows: Indiana, John Overmeyer and Silas A. Shepard; Ohio, H. L. Dunbar and H. C. Cordrey; Illinois, D. E. Gear and A. R. Williams; Kentucky, Ramsey Washington and Joseph L. Rhinock.

It was decided to hold the next annual convention at Lexington, Ky.

Vancouver, B. C., April 8.—Shanghai advices say that the chapel of an American mission in Chung King, Kinsu province, belonging to an American mission, has been attacked by rioters, and some persons in the mission have been murdered. COLD CURE

TO PRESERVE PEACE.

Ambassadors at Washington Make a Last Effort

Washington, April 8.—The representatives of the six powers of Europe seeking to avert war between Spain and the United States called on President McKinley Wednesday. The governments of Great Britain, France, Germany, Austria, Russia and Italy were represented. Sir Julian Pauncefote, as representative of the powers, presented the following:

"The undersigned, representatives of Germany, Austria-Hungary, France, Great Britain, Italy and Russia, duly authorized in that behalf, address in the name of their respective governments a pressing appeal to the feelings of humanity and moderation of the president and of the American people in their existing differences with Spain. They earnestly hope that further negotiations will lead to an agreement which, while securing the maintenance of peace, will afford all necessary guarantees for the re-establishment of order in Cuba.

"The powers do not doubt that the humanitarian and purely disinterested character of this representation will be fully recognized and appreciated by the American nation."

President McKinley replied as follows:

"The government of the United States recognizes the good will which has prompted the friendly communication of the representatives of Germany, Austria-Hungary, France, Great Britain, Italy and Russia, as set forth in the address of your excellencies, and shares the hope therein expressed that the outcome of the situation in Cuba may be the maintenance of peace between the United States and Spain by affording the necessary guarantees for the re-establishment of order in the island, so terminating the chronic condition of disturbance there which so deeply injures the interests and menaces the tranquility of the American nation by the character and consequences of the struggle thus kept up at our doors, besides shocking its sentiment of humanity.

"The government of the United States appreciates the humanitarian and disinterested character of the communication now made on behalf of the powers named, and for its part is confident that equal appreciation will be shown for its own earnest and unselfish endeavors to fulfill a duty to humanity by ending a situation, the indefinite prolongation of which has become insufferable."

NEW MEDICAL DISCOVERY

A Positive Cure For Dyspepsia.

This may look as though we were putting it a little strong, because it is generally thought by the majority of people that dyspepsia in its chronic form is incurable, or practically so. But we have long since shown that dyspepsia is curable, nor is it such a difficult matter as it first appears.

The trouble with dyspepsia is that the are continually dieting, starving themselves, or going to opposite extremes or else deluging the already overburdened stomach with "bitters," "after dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sustained?

This is the great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy, but its success and popularity leave no doubt as to its merits.

The tablets will digest food anyway, regardless of condition of stomach.

The sufferer from dyspepsia according to directions is to eat an abundance of good, wholesome food and use the tablets before and after each meal and the result will be digested, no matter how bad your dyspepsia may be, because as before stated, the tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1,800 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet these tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical, lasting cure of dyspepsia will be made because the much abused stomach will be given, to some extent, a much needed rest. Your druggist will tell you that of the many remedies advertised to cure dyspepsia none of them has given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.

WILL HAVE NO FURTHER DELAY.

Should the President Not Send in His Message by Monday the House and Senate Will Take the Cuban Matter Out of His Hands.

Washington, April 8.—Representatives Lorimer and Hopkins of Illinois and other members of the committee appointed by the conference of republican congressmen devoted considerable time Thursday to a canvass of their side of the house for the purpose of ascertaining the views of their colleagues upon the proposition to take positive action upon the Cuban problem on Monday next, should the president's message be delayed beyond that date. Representative Lorimer said that the committee polled 103 republicans in the house who pledged themselves to vote for action on Monday unless the president's message is received. He says the committee is certain that this strength can be greatly increased.

No action will be taken, however, Mr. Lorimer says, to draft a resolution for the approval of the conference this week, as the republicans of the house are convinced that congress will hear from the president on Monday, and that the message will be satisfactory. They are led to believe this from a speech made by Representative Grosvenor of Ohio, the recognized mouthpiece of the administration, in which he declared in substance for war. Should the president's message be withheld beyond Monday, and should the republicans of the house adhere to their present purpose of not waiting upon the president beyond that day, the Foraker resolution, recognizing the independence of the Cuban republic and directing armed intervention, with the Maine incident added, will receive their support, and with the solid vote the democrats would give it will pass the house by a large majority.

GOV. PINGREE'S ULTIMATUM.

No Railway Tax Law, No War Appropriation, Is His Platform.

Lansing, Mich., April 8.—The discussion of the Pingree railroad-tax bill in the senate Thursday caused excitement. Gov. Pingree, who was on the floor, was denounced as the "prince of demagogues" by Senator Thompson, who, in turn, was attacked by Senator Moore, the Pingree leader.

The bill was amended so as to increase the membership of the board of assessors from three to five, and so as to bring electric railway companies within its provision. The latter amendment will, it is believed, result in the defeat of the bill, a majority being against it.

If the bill is defeated in the senate the legislature will have no chance to make a war appropriation.

"If the federal government is willing to allow its agents in this state to prevent the just taxation of railroads," said Gov. Pingree, "then, of course, the federal government does not expect the people of this state to make appropriations for war. It must intend to pay the bills itself."

Margaret Mather Is Dead.

Charleston, W. Va., April 8.—Margaret Mather, the actress, played her last death scene here Thursday night. While playing the cave scene in the fourth act of "Cymbeline" in this city Wednesday night she collapsed and was carried off the stage in an unconscious condition and never regained consciousness. She died at 5 p. m. of the convulsions caused by acute Bright's disease.

Railway Bridge Blown Down.

Lethbridge, N. W. T., April 8.—A part of the new bridge for the Crow's Nest Pass railway over the St. Mary's river was blown down Thursday, carrying with it eight men. One man, named Ferguson of Renfrew, Ont., was killed, and the other seven seriously injured. The men fell about sixty feet.

SPANISH CABINET MEETS.

Government Program in All Its Phases to Be Adhered To.

Madrid, April 8.—The cabinet ministers at their meeting last evening decided to appoint a committee to organize and superintend the national subscription to increase the strength of the fleet. A semi-official note issued after the adjournment says:

"The cabinet considered every aspect of the situation on the information of the foreign and colonial ministers and especially in the light of the reports of the ministers of war and marine. The outcome of the deliberations was the adhesion of the government to all its previous decisions without modification, and resolutions to that effect were adopted. During the sitting the foreign minister made several visits to the palace."

After the cabinet meeting and the issue of the semi-official note, which was regarded as a serious announcement, there was much excitement and bellicose talk in the city. A general rumor was current that the United States government had presented an ultimatum to the government of Spain demanding that the latter, within six hours, should modify the note presented as a result of the last conference. This rumor is in no way confirmed by those who are acquainted with the facts in the case, but it found credence throughout Madrid.

The military papers are violent in their utterances against the United States.

AID FOR THE VICTIMS.

Thousands of Curiosity Seekers Go to Shawneetown.

Shawneetown, Ill., April 8.—Fair weather and falling water throughout this section of the country served to attract thousands to Shawneetown. Transportation facilities to the stricken little city are still wretched and curiosity seekers must ferry over large stretches of waterswept territory and walk miles to the scene of death and desolation.

The Ohio river, which skirts Shawneetown on the east, has fallen about three feet since Sunday and hope is entertained that within ten days the water will have disappeared from the higher portion of the village.

The relief committee Thursday received cash contributions amounting to nearly \$500. The total fund now reaches \$7,000. The state of Illinois, through Governor John R. Tanner, has sent \$3,000. Provisions and clothing also are being received regularly and in large quantities, so that all fears of inability to meet the absolute necessities of the flood victims are past.

The citizens' executive committee asks that contributions of money be sent direct to Chairman Carroll at Shawneetown and that all supplies be forwarded via Evansville. In an official statement issued tonight the relief committee says that \$500,000 will cover the property loss. This does not include damage to the levee, public improvements or the railroads.

Spanish Generals Protest.

New York, April 8.—A dispatch to the World from Madrid says: Distinguished Spanish generals and some members of the cabinet waited upon the queen regent to protest against the surrendering of Spanish rights in Cuba. Among the generals were Lopez, Dominguez, Polavieja, Azcarraga, La Chambre, Segura and Dabon. Weyler, with his military and political following, and Senor Romero Robledo have been active lately in criticising the conduct of Sagasta with reference to Cuba and the Spanish relations with the United States.

Squadron Ordered to Wait.

Washington, April 8.—It was stated at the navy department this morning that the "flying squadron" will remain at Hampton Roads until the president sends in his message, which will be next Monday, unless something important happens, when another delay will be in order, and the impression prevails in peace circles that the message, which took the president a week to prepare, will never be sent to congress.

Spalding's Appeal Is Lost.

Springfield, Ill., April 8.—Ex-Banker Charles W. Spalding, now in jail in Chicago, will be obliged to serve his sentence in the state prison. Spalding's last appeal to the supreme court for a rehearing of his case was denied by that tribunal this morning and the sentence of the lower court affirmed.

Christina Appeals to Victoria.

London, April 8.—It is reported that the queen regent of Spain has again appealed to Queen Victoria direct, asking the latter to exert her influence to avert war, and, it is added, "touchingly recalling that both Victoria and herself are widows, and thus deprived of advisers."

Think the Situation Is Grave.

Madrid, April 8.—The morning papers here are unanimous in expressing the opinion that the situation is very grave. Several papers announce that Gen. Woodford will leave Madrid tomorrow. He has now taken up his residence at the United States legation.

Gen. Shafter Satisfied.

San Diego, Cal., April 8.—Gen. Shafter, who is now inspecting the fortifications of this port, states that the first of the ten-inch rifles will be in place at Ballast point by tonight. He is pleased with the rapid progress on the harbor defenses here.

Flotilla Ready to Sail.

St. Vincent, Cape Verde Islands, April 8.—The Spanish torpedo flotilla, under command of Commodore Villamil, is still here, but expecting to sail for Porto Rico. The whole squadron is ready to go to sea at a moment's notice.

No evils are so pernicious as the adulteration of food or drink; hence one cannot be too careful about what goes into the stomach. True, the stomach is accustomed to a large amount of ill-treatment. It is an organ of great accommodation and wonderful endurance but as the day ends and night is sure to succeed it so to it with the stomach's capacity for enduring ill-usage. Persons who use whiskey in any form should remember these facts and avoid the adulterated stomach destroying compounds which are offered them by dealers who represent such as so many years-old straight whiskeys. Under the laws of Congress passed at its last session, the purchaser of a drink or bottle of whiskey has only himself to blame if deception is practiced on him now, as the U. S. stamp covers every bottle of straight whiskey. Green River is that whiskey. It is bottled under the direct supervision of the government, the official stamp of the nation covers every bottle of it, thus guaranteeing its genuineness, age, proof and purity. But be sure you get Green River Whiskey, the whiskey without a headache.

SEPTICIDE

"While in the army with the 54th ind. Vols. sores came on my leg from the knee down, and much of the time since that I have been able to walk only with crutches. I have tried almost every remedy which friends suggested, but never struck the right remedy until about three weeks ago, when by the advice of our druggists, Goddard & Watson, I commenced the use of 'SEPTICIDE.'
